# SR SERIES SPEECH RECOGNITION HEADSETS

## Padded Headband

Keeps headset in place and provides ))))))) comfort during extended work shifts.

## Adjustment Strap

Accommodates 95% of worker head sizes.

## CONNECTOR OPTIONS

### Industrial-grade Breakaway Connector

In the event the cable is subject to unusual strain, our patented breakaway connector separates cleanly from the device. Neither the headset nor the device will be damaged. Tested to provide six years of continuous industrial use.

Maximizes audio quality via an extremely secure connection.

### Consumer-grade Audio Jack

Tested to provide approximately one year of industrial use.

## Ear Cup

Patent-pending ball-and-socket ))))))) mechanism makes ear pad replacement easy. Pads snap into place in seconds so your team stays productive.

## Microphone Boom

Delivers first-time speech recognition performance.

- Three-position Speech Groove™ and rotating boom makes it easy to maintain the proper angle for repeatable positioning of the microphone.
- Provides a single headset solution to wear on either ear simply by rotating the microphone boom.
- A retention feature keeps the moisture-resistant coated windscreen in place.

## Waterproof Noise-Canceling Microphone

Delivers optimal speech recognition performance.

- To maximize first-time speech recognition accuracy, the SR Series comes equipped with a custom high-performance noise canceling microphone. One side provides for high-quality speech input and the other side eliminates interference from workplace noise.
- A talk-side visual indicator makes it easy for your team to know they are speaking into the correct side of the microphone.
